Residential Crisis Support Program

Prospect House is designed to assist those who are in crisis or experiencing emotional distress while avoiding or reducing hospitalization.

Alternative to Hospitalization

The program offers 24 hour supports for the stabilization of psychiatric symptoms with the dual goal of averting hospitalization all in a comfortable, home-like environment.

Hospital Step-Down

Prospect House is an ideal place for those who are stepping down from the hospital but still need additional time and support before returning home.

Guests take an active role in their recovery and work with staff to establish objectives to work on during their stay and establish linkages to community resources.

Prospect House is located in Canandaigua, NY and is licensed by the Office of Mental Health.
